МАТЕМАТИЧЕСКИЙ СБОРНИК
Том 113 (155) (1980), вв. 1—4
MATHEMATICS OF THE USSR-SBORNIK
Volume 41, Numbers 1—4, 1982

AUTHOR INDEX

Aptekarev, A. I. *Asymptotics of Hadamard determinants and the convergence of rows of Padé approximants for sums of exponentials* 427

Arakeljan, N. U. *On uniform and asymptotic approximation on the real axis by entire functions of restricted growth* 1

Čan Dyk Van [Chan Dyk Van] *Elliptic equations of infinite order with arbitrary nonlinearities and corresponding function spaces* 203

Čekanu, G. P. *On local finiteness in varieties of associative algebras* 181

Dedik, P. E. and Šubin, M. A. *Random pseudodifferential operators and the stabilization of solutions of parabolic equations with random coefficients* 33

Drozd, Ju. A. *The structure of hereditary rings* 139

Ismagilov, R. S. *Imbedding of a group of measure-preserving diffeomorphisms into a semidirect product and its unitary representations* 67

Kolosov, V. E. *Homotopy self-equivalences of highly connected manifolds* 481

Kondratjuk, A. A. *The Fourier series method for entire and meromorphic functions of completely regular growth.* II 101

Kornilov, P. A. *On rearrangements of conditionally convergent series of functions* 495

Kozlov, S. M. *Asymptotics of fundamental solutions of second-order divergence differential equations* 249

Krjučkov, N. I. *On the abelian extensions of locally compact abelian groups* 511

Maiorov, V. E. *On linear widths of Sobolev classes and chains of extremal subspaces* 361

Medvedev, V. S. *On a new type of bifurcations on manifolds* 403

Milovanov, M. V. *A description of solvable Lie groups with a given uniform subgroup* ... 83

Nikišin, E. M. *On simultaneous Padé approximants* 409

Pal'cev, B. V. *A generalization of the Wiener-Hopf method for convolution equations on a finite interval with symbols having power-like asymptotics at infinity* 289

Peller, V. V. *Hankel operators of class $\mathfrak{S}_p$ and their applications (rational approximation, Gaussian processes, the problem of majorizing operators)* 443

Plužnikov, A. I. *On harmonic mappings of Riemann surfaces and fibered manifolds* 281

Pohožaev, S. I. *On equations of the form $\Delta u = f(x, u, Du)$* 269

Sarkisjan, R. A. *Algorithmic questions for linear algebraic groups.* I 149

——. *Algorithmic questions for linear algebraic groups.* II 329

Saryčev, A. V. *Stability of mappings of Hilbert space and equivalence of controlled systems* 127

———. *The index of the second variation of a control system* 383

Šatalov, V. E. See Sternin, B. Ju.

Skriganov, M. M. *Finiteness of the number of lacunae in the spectrum of the multi-dimensional polyharmonic operator with a periodic potential* 115

Sternin, B. Ju. and Šatalov, V. E. *Legendre uniformization of multi-valued analytic functions* 217

Šubin, M. A. See Dedik, P. E.

Tem!jakov, V. N. *Approximation of periodic functions of several variables with bounded mixed difference* 53

Vidiger, A. [Widiger] *Decomposition of Artinian alternative rings* 235
